A MESSAGE FROM THE DIRECTOR

The State of Illinois STATISTICAL ABSTRACT for 1980 presents selected social, economic, and physical data for the State of Illinois.

Most of the data presented in the abstract has been gathered from state government agencies. In many instances additional information on a given subject is available. If questions arise concerning data that are presented or further information is necessary, please direct requests to the cited source.

For analyses purposes the data presented have been divided into eight general areas. These are: Human Resources, Health, Education, Public Safety, Natural Resources and Environment, Transportation, Economic Affairs, and Governmental Administration. The data is generally presented for each county and selectively for the State's Standard Metropolitan Statistical Areas.

Robert L. Mandeville
Director

W - Withheld to avoid disclosing individual company confidential data; included with "Undistributed."
1 - Cass, Morgan, and Putnam (1976 only) Counties are not included because no production was reported.
2 - Value of petroleum production in Cumberland County is included with Clark County because actual source of production cannot be identified.
3 - Fluorspar and metals values included with Hardin County.
4 - Includes some crude oil and stone that cannot be assigned to specific counties, and values indicated by symbol W.
5 - Data may not add to totals shown because of independent rounding.

[1] Conceptually, Corporate Farm Income is excluded ... and thus subtracted ... from Total Net Income of All Farms in deriving the Net Income of Farm Proprietors. However, due to statistical adjustment as well as to the method used in estimating Corporate Farm Income at the State level, positive adjustments to counties with no Corporate Farms may occur.

[2] Based on annual county estimates prepared by SRS, U.S. Department of Agriculture.
